DESIGN TO FIT

Dear RBF Client,

RBF Contract consists of committed furniture professionals serving the Hospitality Industry. With over 30 years of hospitality experience, our hands-on Formula is a key factor in the ongoing success with major hotel companies, designers, and purchasers alike. Maintaining the highest quality construction standards and our attention to detail is the foundation to completing many successful projects. RBF maintains both our own domestic (US) production as well as overseas manufacturing; both necessary components to insure a level of premium customer service.

Please take a moment to review our RBF Contract Quick Reference Guide, a small representation of our capabilities. We can supply both large and small quantities in either our designs or built to your specifications. In an effort to insure confidence we offer CAD drawings, finish strike-offs, and/or samples as needed. Let us collaborate with you on upcoming projects and experience the difference RBF can bring.

We are confident that our passion and commitment to the success of your project will earn us the right to be your vendor of choice. The RBF formula has established the respect and trust of our clients for over three decades. We look forward in doing the same for you!

Sincerely,

Robert Brown
